

Suliman N. Al-Turkmani

Network Engineer | CCNA • HCIP • Fortinet FCF • Google IT Support • Cybersecurity

Riyadh, Saudi Arabia • 0537627710 • Kimsolman80@gmail.com • linkedin.com/in/suliman-n-al-turkmani-0759a0104

PROFESSIONAL SUMMARY

Network Engineer with 13+ years of experience across government and private sectors in Saudi Arabia. Proven record operating an enterprise network spanning a headquarters, 15 branches, a main datacenter, and 500+ users, and leading end-to-end IT operations as sole IT engineer for a private company. Strong in Cisco and Alcatel-Lucent routing & switching, Fortinet security, Windows Server, Hyper-V virtualization, Microsoft 365, and VoIP. CCNA and HCIP certified; currently pursuing CCNP, Fortinet NSE4, AWS, and Microsoft Azure.

CORE SKILLS

- **Networking:** Cisco (ASR, Nexus, Catalyst), Alcatel-Lucent OmniSwitch, Dell switches; OSPF, EIGRP, BGP, MPLS, RIP; VLAN, VTP, STP, trunking, EtherChannel (PAgP/LACP); HSRP, VRRP, GLBP, VSS; NAT, PAT, ACLs; WAN, SD-WAN, VPN (IPSec, GRE); IPv4/IPv6, subnetting
- **Security:** FortiGate firewalls, firewall policy & proxy configuration, network device hardening, Trend Micro, Kali Linux fundamentals
- **Systems:** Windows Server, Active Directory, DHCP, DNS, Hyper-V, VMware, Microsoft 365 administration (Exchange Online, Teams, SharePoint, OneDrive), Linux basics
- **Voice:** 3CX PBX, SIP trunking, VoIP, Cisco IP Telephony
- **Monitoring & Tools:** SolarWinds, PRTG, WhatsUp Gold, Wireshark, GNS3, Cisco Packet Tracer, SecureCRT
- **Business Platforms:** Zoho One (CRM, Finance, SalesIQ), WordPress administration
- **Scripting:** Python, Bash, SQL (working knowledge)

PROFESSIONAL EXPERIENCE

IT Engineer — MEGA Group, Riyadh

Sep 2024 – Present

Sole IT engineer for a 25-user company; full ownership of network, systems, and end-user infrastructure (3 switches, edge router/circuit, FortiGate 60F firewall, 2 physical servers).

- Led migration of business operations from Odoo to Zoho One (CRM, projects, email, and operations) with minimal downtime
- Designed and deployed a Hyper-V virtualization host and provisioned multiple VMs supporting internal services
- Implemented an in-house 3CX PBX (SIP trunks, call routing, digital receptionist) and rolled out 20+ IP phones, improving internal and external communications
- Administer Microsoft 365 (Outlook, Teams, OneDrive, SharePoint) for all staff, on-site and remote
- Maintain network infrastructure: switching, routing, and FortiGate firewall policies; manage backups, security updates, antivirus, and endpoint protection
- Created internal IT documentation and delivered user training; improved IT asset management and operational response time
- Administer WordPress website with embedded Zoho SalesIQ live chat; coordinate vendors and procurement

IT Network & Systems Engineer — Ministry of Media, Riyadh

2021 – Aug 2024 • via Tech Track

Operated the enterprise network serving headquarters, 15 branches, the main datacenter, and ~500 users.

- Managed Cisco ASR, Nexus, and Catalyst platforms plus Alcatel-Lucent OmniSwitch and Dell switching estate, including datacenter network and IP services
- Configured network device security, firewall policies, and proxy; NAT, PAT, and ACLs; routing across RIP, EIGRP, OSPF, BGP, and MPLS; WAN, SD-WAN, and VPN links to branch sites
- Resolved fault and request tickets through Interaction Smart Client; performed network backups, password recovery, and IOS upgrades
- Administered Windows Server services: Active Directory, DHCP, DNS; supported VoIP and SIP services
- Monitored the network with SolarWinds, PRTG, Riverbed, Splunk, and WhatsUp Gold

Network Engineer — Ministry of Media, Riyadh

2018 – 2021 · via Creative System

- Configured and implemented Cisco and Alcatel switches and routers across HQ and branch network, including NAT/PAT and ACLs
- Implemented redundancy and load balancing (HSRP, VRRP, GLBP) and VSS between Catalyst core switches
- Configured VTP, L2/L3 VLANs, trunk ports, and port-channels; implemented SNMP for network management
- Built DHCP scopes for IP telephony, access points, user PCs, and master clock synchronization
- Monitored and managed Cisco access points and wireless controllers via WCS and Cisco Prime
- Maintained firmware upgrades and backups of running/startup configurations and IOS; produced server backup reports
- Resolved incidents, requests, and changes through SolarWinds

IT Network Specialist — Ministry of Media, Riyadh

2015 – 2018 · via SNS

- Installed and configured network hardware and software, including security measures, across HQ and branches
- Monitored network performance, performed preventive maintenance, and diagnosed connectivity issues with root cause analysis
- Assisted in planning and executing network upgrades and expansions
- Maintained detailed network documentation and performance reports; provided technical support and training to end-users

Technical Support Engineer — Ministry of Culture & Information, Riyadh

2012 – 2015 · via ACS

- Owned reported issues end-to-end for a ~500-user environment: research, diagnosis, troubleshooting, and resolution
- Managed multiple concurrent tickets within agreed time limits, with proper escalation to internal teams
- Followed up with clients post-resolution and prepared accurate, timely reports and technical documentation

PROJECTS

Website Hosting Migration — Azure to Hostinger — MEGA Group (2026)

Migrated the company website from Microsoft Azure to Hostinger with no data loss and minimal downtime. Reconfigured DNS and SSL, validated integrations, and enhanced site performance and content post-migration.

Odoo → Zoho One Business Migration — MEGA Group (2025)

Led the end-to-end migration of company operations (CRM, projects, email, and operations) from Odoo to Zoho One. Planned data migration, configured Zoho One applications, trained users, and executed cutover with minimal downtime.

In-House VoIP PBX Implementation (3CX) — MEGA Group (2024-2025)

Deployed a virtualized 3CX PBX on Hyper-V: SIP trunk configuration, call routing, digital receptionist, and rollout of 20+ IP phones company-wide, replacing external telephony dependence.

IT Network & Security Infrastructure Upgrade — Ministry of Media (2019)

Upgraded the security rack to FortiGate firewalls with Trend Micro network traffic analytics. Prepared infrastructure requirements and cabling, produced the design with the Security department, and managed the upgrade and post-upgrade traffic monitoring.

Riyadh Book Fair 2019 Network Implementation — Ministry of Media (Apr 2019)

Designed and operated the event network: cabling design, switch/router configuration, live performance monitoring, hardware replacement, and ISP coordination. Recognized with an award from the Ministry CIO.

EDUCATION

- **BSc Computer Science** — University of the People | 2022 – 2024 · GPA 4.0, Graduated with Honors
- **Bachelor of IT Engineering** — Damascus University | 2010 – 2015

CERTIFICATIONS

Held: Cisco CCNA (Routing & Switching) · Huawei HCIP · Fortinet Certified Fundamentals in Cybersecurity (FCF) · Google IT Support Certificate · Cisco Introduction to Cybersecurity · Python Essentials 1 · Claude 101 (Anthropic)

In progress: Cisco CCNP · Fortinet NSE4 · AWS · Microsoft Azure · Alibaba Cloud Associate (ACA)

AWARDS & LANGUAGES

- Ministry of Media CIO Award — successful delivery of the Riyadh Book Fair 2019 network
- **Languages:** Arabic (native) · English (professional working proficiency)
